

FAN AgTech Uptake Program

FAN is pleased to share its involvement in AgriFutures Australia Producer Technology Uptake Program – to be rolled out over the next six months.

The pilot program supports producers to increase adoption of technology solutions in their business.

Through this program FAN aims to support its members to increase their awareness and uptake of relevant AgTech solutions for their businesses. FAN will work with members to:

- understand locally relevant pain points
- identify technologies to address the pain points
- share insights about the available technologies and demonstrate their application on-farm
- identify areas for new AgTech solutions
- build a database of relevant AgTech
